Contents Volume 238 2002

Volume 238 No. 1

The physiological basis of increased biomass partitioning to roots upon nitrogen deprivation in young clonal tea (*Camellia sinensis* (L.) O. Kuntz)
A. Anandacoomaraswamy, W.A.J.M. De Costa, P.L.K. Tennakoon and A. Van Der Werf **1–9**

Microbiological and chemical properties of soil associated with macropores at different depths in a red-duplex soil in NSW Australia
C.E. Pankhurst, A. Pierret, B.G. Hawke and J.M. Kirby **11–20**

^{15}N natural abundance studies in Australian commercial sugarcane
I.M. Biggs, G.R. Stewart, J.R. Wilson and C. Critchley **21–30**

***Medicago sativa* and *Medicago murex* differ in the nodulation response to soil acidity**
Y. Cheng, E.L.J. Watkin, G.W. O'Hara and J.G. Howieson **31–39**

The influence of long-term tillage systems on symbiotic N_2 fixation of pea (*Pisum sativum* L.) and red clover (*Trifolium pratense* L.)
K. Reiter, K. Schmidtke and R. Rauber **41–55**

Timing of xylem sampling for ureide analysis of nitrogen fixation
D.F. Herridge and M.B. Peoples **57–67**

Benefits of CO_2 enrichment on crop plants are modified by soil water status
S. Kang, F. Zhang, X. Hu and J. Zhang **69–77**

Topographic position affects the water regime in a semideciduous tropical forest in Panamá
M.I. Daws, C.E. Mullins, D.F.R.P. Burslem, S.R. Paton and J.W. Dalling **79–89**

Effect of fertilization on selenium content of tea and the nutritional function of Se-enriched tea in rats
Q. Hu, G. Pan and J. Zhu **91–95**

Seasonal variability of apoplastic NH_4^+ and pH in an intensively managed grassland
B. Loubet, C. Milford, P.W. Hill, Y. Sim Tang, P. Cellier and M.A. Sutton **97–110**

The pattern of carboxylate exudation in *Banksia grandis* (Proteaceae) is affected by the form of phosphate added to the soil
H. Lambers, D. Juniper, G.R. Cawthray, E.J. Veneklaas and E. Martínez-Ferri **111–122**

Specific occurrence of β-phenethylamine in root nodules formed from *Bradyrhizobium*-legume symbiosis
S. Fujihara, J. Terakado, M. Takenaka and T. Yoneyama **123–132**

Stocks and humification degree of organic matter fractions as affected by no-tillage on a subtropical soil
C. Bayer, J. Mielniczuk, L. Martin-Neto and P.R. Ernani **133–140**

Potassium nutrition and free polyamines of *Betula pendula* Roth and *Betula pubescens* Ehrh.
S. Tytti and K. Seppo **141–149**

Uptake of water by lateral roots of small trees in an Amazonian Tropical Forest
L. da S.L. Sternberg, M.Z. Moreira and D.C. Nepstad **151–158**

Needle chemistry in young Norway spruce stands after application of crushed wood ash
H. Arvidsson and H. Lundkvist **159–174**

Volume 238 No. 2

Biogeochemical consequences of the transformation of native Cerrado into *Pinus caribaea* plantations in Brazil
W. Wilcke and J. Lilienfein **175–189**

Nitrogen relations of a low nitrate uptake inbred line of white clover (*Trifolium repens* L.)
J.H. Macduff, M.T. Abberton, N. Raistrick and T.P.T. Michaelson-Yeates **191–204**

Effect of autumn and winter mycorrhizal cover crops on soil properties, nutrient uptake and yield of sweet corn in Pennsylvania, USA
Z. Kabir and R.T. Koide **205–215**

Colonization with *Hebeloma crustuliniforme* increases water conductance and limits shoot sodium uptake in white spruce (*Picea glauca*) seedlings
T.M. Muhsin and J.J. Zwiazek **217–225**

Molecular marker analysis of manganese toxicity tolerance in rice under greenhouse conditions
Y.X. Wang, P. Wu, Y.R. Wu and X.L. Yan **227–233**

Influence of the mycorrhizal fungus, *Glomus coronatum*, and soil phosphorus on infection and disease caused by binucleate *Rhizoctonia* and *Rhizoctonia solani* on mung bean (*Vigna radiata*)
R.S. Kasiamdari, S.E. Smith, F.A. Smith and E.S. Scott **235–244**

Effects of red clover (*Trifolium pratense*) green manure and compost soil amendments on wild mustard (*Brassica kaber*) growth and incidence of disease
A.E. Conklin, M.S. Erich, M. Liebman, D. Lambert, E.R. Gallandt and W.A. Halteman **245–256**

Field evaluation of plant growth-promoting Rhizobacteria amended transplant mixes and soil solarization for tomato and pepper production in Florida
N. Kokalis–Burelle, C.S. Vavrina, E.N. Rosskopf and R.A. Shelby **257–266**

Cold-storage of mixed inoculum of *Glomus intraradices* enhances root colonization, phosphorus status and growth of hot pepper
K.Y. Kim, Y.S. Cho, B.K. Sohn, R.D. Park, J.H. Shim, S.J. Jung, Y.W. Kim and K.Y. Seong **267–272**

Copper mobility and toxicity of soil percolation water to bacteria in a metal polluted forest soil
O. Kiikkilä, J. Derome, T. Brügger, C. Uhlig and H. Fritze **273–280**

Effects of silicon supply on apoplastic manganese concentrations in leaves and their relation to manganese tolerance in cowpea (*Vigna unguiculata* (L.) Walp.)
K. Iwasaki, P. Maier, M. Fecht and W.J. Horst **281–288**

Rhizosphere priming effects on the decomposition of soil organic matter in C_4 and C_3 grassland soils
S. Fu and W. Cheng **289–294**

Characteristic moisture curves and maximum water content of two crop residues
M. Quemada and M.L. Cabrera **295–299**

Microbial community composition and functional diversity in the rhizosphere of maize
E. Kandeler, P. Marschner, D. Tscherko, T. Singh Gahoonia and N.E. Nielsen **301–312**

Long-term movement of ^{15}N tracers into fine woody debris under chronically elevated N inputs
W.S. Currie, K.J. Nadelhoffer, B. Colman **313–323**

The role of arbuscular mycorrhizal fungi and glomalin in soil aggregation: comparing effects of five plant species
M.C. Rillig, S.F. Wright and V.T. Eviner **325–333**

Volume contents **335–337**

Author index **339**

Instructions for authors **341–347**
